## Frontend & AI Developer

iletisim@ozturktaha.com   ozturktaha.com   github.com/OzTaha   linkedin.com/in/tahaozturk07

### PROFILE

I am a Frontend & AI Developer who builds fast, accessible and user-focused web interfaces. I use HTML, CSS, JavaScript and React to create interfaces that work consistently on every screen size, and I turn the screens I design in Figma into code. I am deepening my TypeScript expertise and put AI tools such as Claude Code, Codex and Cursor, along with automation, at the center of how I work. My SEO, GEO and AEO experience helps the sites I build stay visible in search engines and AI answers.

### EXPERIENCE

#### **WordPress and SEO Specialist** Dijital Pilot Advertising Agency Dec 2025 – Apr 2026

- Maintained client websites and handled updates and performance monitoring.
- Improved visibility in search engines and AI answers by making sites SEO, GEO and AEO compliant.
- Built an AI-powered SEO research and blog writing automation that cut content production time significantly.  
WordPress, Ahrefs, Semrush, Google Analytics, Google Search Console, Claude Code, Google AI Studio

#### **Frontend Developer and Instructor** Sam Bilim Akademi Nov 2023 – Jan 2025

- Built training projects with HTML, CSS (Bootstrap, Tailwind CSS) and JavaScript.
- Taught frontend development and mentored students through their projects, helping raise their success rate.
- Improved the user experience of responsive designs.  
HTML, CSS, Bootstrap, Tailwind CSS, JavaScript, React, C#

#### **Customer Service Team Member** IKEA Feb 2022 – Oct 2022

- Managed customer records for delivery and assembly services and resolved issues through the call center.

#### **Barista** Coffee's Aug 2019 – Oct 2021

- Alongside service, handled the register, inventory, back-office tasks and data entry.

#### **Student Teacher (Geography)** Mehmet Akif Ersoy Anatolian High School Oct 2016 – Jun 2017

- Gained lesson planning and classroom teaching experience as part of the teaching certificate program.

### SELECTED PROJECTS

#### **Apartment Management System** Web application 2026

A mobile-friendly web application with multi-site support that digitizes apartment and residential complex management.

Live site: [130-61-118-178.sslip.io](https://130-61-118-178.sslip.io)   Source code: [github.com/OzTaha/apartman-yonetim-sistemi](https://github.com/OzTaha/apartman-yonetim-sistemi)

TypeScript, React 19, NestJS, PostgreSQL, Prisma, Redis, Tailwind CSS, Docker

#### **FlexBazaar** Microservices e-commerce app 2025

An e-commerce application built on a microservice architecture during the ASP.NET Core microservices course (MultiShop).

Source code: [github.com/OzTaha/FlexBazaar](https://github.com/OzTaha/FlexBazaar)

C#, .NET 6, CQRS, MSSQL, PostgreSQL, MongoDB, Redis, RabbitMQ, SignalR, Docker

### EDUCATION

|                                                                                       |             |
|---------------------------------------------------------------------------------------|-------------|
